

Guide to the Study of Intelligence

Are You Using It?

The *Guide* consists of more than 65 articles on all aspects of intelligence. It is intended to help instructors become familiar with intelligence-related subjects. *Guide* articles, written by both academic experts and seasoned practitioners, are introductions to the subject with recommended readings for further study.

Guide articles appear in AFIO's journal *Intelligencer* and as PDFs on the web at www.afio.com/40_guide.htm. They are free for academic use. If viewing this flyer online, the titles are linked to the online articles.

Selected Articles

[Why Teach About Intelligence](#) (Stephen Marrin, PhD, James Madison University)

[Who Are the Customers for Intelligence?](#) (Peter C. Oleson, MA, Univ. of Maryland University College)
